Professional Summary

Full-Stack Developer specializing in MERN and Next.js ecosystem with experience in building AI-powered and real-time applications. Skilled in designing scalable architectures, secure APIs, and cloud-based storage solutions. Hands-on experience with payment integrations, WebRTC, and modern UI frameworks, with a strong focus on performance optimization and user-centric design.

Experience

Full Stack MERN Developer

Jan 2026 – Present

LearnLMWorld

- Developed a **full-stack MERN application** using TypeScript for scalable frontend architecture.
- Built responsive UI with Tailwind CSS and integrated **Razorpay payment workflows**.
- Implemented **real-time video conferencing (100ms)** and optimized CRUD operations with MongoDB.
- Integrated **Cloudflare R2** for scalable object storage and managed secure file handling.
- Managed **end-to-end deployment** using Vercel and Render, along with maintaining version control and workflows on GitHub.

Projects

Vehicl — *Next.js, Tailwind CSS, ShadCN UI, Prisma ORM, Supabase, Arcjet, Gemini API* — [GitHub](#) — Live

- Built an **AI-powered car recommendation platform** using Gemini API with personalized suggestions.
- Developed **role-based dashboards (Admin & User)** with secure CRUD operations via Prisma + Supabase.
- Implemented **AI/manual listing pipelines** and integrated Arcjet for bot protection and rate limiting.
- Ensured **real-time database synchronization** and optimized query performance for scalability.

MediMeet — *Next.js, Tailwind CSS, ShadCN UI, Prisma ORM, Neon DB, Vonage(WebRTC)* — [GitHub](#) — Live

- Built a **doctor-patient teleconsultation platform** with real-time WebRTC video via Vonage.
- Designed **RBAC system (Admin, Doctor, Patient)** with appointment scheduling workflows.
- Managed backend using **Prisma ORM + Neon PostgreSQL** ensuring scalability and performance.
- Optimized **low-latency communication** for seamless video consultations.
- Implemented secure data handling ensuring **privacy and integrity of healthcare data**.

FillMyPocket — *Next.js, Tailwind CSS, MongoDB, Razorpay*

[GitHub](#)

- Developed a **donation platform** with secure Razorpay payment integration.
- Implemented **transaction tracking and donor management** using MongoDB.
- Built responsive UI and ensured **payment validation and security**.
- Designed efficient backend flows for **transaction consistency and error handling**.

Technical Skills

Languages: C, C++, Python, JavaScript (ES6+), TypeScript, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, ShadCN UI

Backend: Node.js, Express.js, REST APIs, WebRTC, RBAC

Database: MongoDB, PostgreSQL, MySQL, Prisma ORM, Supabase, Neon

Tools: Git, Razorpay, 100ms

Education

B.Tech in Computer Science Engineering

2023 – Present

Institute of Engineering and Technology, Lucknow
